

Sweeper Attachment

Sweeper Attachment - Forklifts manufactured by AUSU, provide great functionality and are very popular for their ergonomic, compact and highly modular design. They offer stability and versatility while handling awkward or really heavy loads on the job location, while being really safe to control. With respect to other forklifts, AUSA units have a large diameter of their wheels that helps to ensure favorable weight suspension in the cabin and in the blades. This allows the forklift to generate an optimum working productivity over uneven and variable surfaces.

AUSA company headquarters are situated in Manresa, Spain which is situated in the interior of the territory of Barcelona. The manufacturing plant is also at this location and features a total surface area of more than 64,000 square meters. AUSA has subsidiaries situated in the UK, Germany, Madrid, France, Florida and China. The company exports over 60 percent of the equipment they manufacture and advertises its goods through 225 distributors all around 70 countries.

Each forklift produced by AUSA is existing outfitted along with their automatic hydrostatic transmission. This gives automatic braking in deceleration and accuracy in movement of the forklift giving an added level of productivity and safety. The hydrostatic transmission allows the individual operating it to quickly adapt to the forklift that is essential if the load is really not easy to handle and whenever terrain conditions are complicated.

The operator cab on the AUSA lift truck is the only one accessible which is frontal-folded to allow easy and efficient access for periodical upkeep. Highly modular, these cabins are presented open, semi-closed or soundproof closed. For northern weather heated cabins are an alternative, as well, air conditioning is integrated in a back post of the cabin. Different grips, attachments and tire widths are even offered so as to fit whichever of the lift truck models.

AUSA is amongst the world's best in compact equipment, specializing not just in rough terrain forklifts but likewise tool carrier vehicles, site dumpers and urban sweepers. With service and sales all over 70 nations within 5 continents and over 200 sales depots internationally, AUSA is an industry leader.
