

Meritor Part

Meritor Parts - Meritor is a leading global supplier that is proudly founded on a one hundred year custom of service and quality. They specialize in a broad range of integrated systems, modules and parts to original machine makers and the aftermarket for the transportation and industrial trades.

Meritor values the needs of their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their global operations. Meritor begins with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over 11,200 people, Meritor encourages innovation and collaboration among a team of experienced experts.

Meritor strongly believes in only hiring future focused workers. These top-caliber people could rapidly get used to to changing environments and freely demonstrate the level of commitment and performance required so as to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor offers all of their employees different possibilities for professional and personal growth.

Their Advanced Engineering team is at the forefront of components and system engineering which consist of axles, drivelines, suspension and braking systems designed for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of their global engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group who is dedicated to ensuring optimum development at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

The supplier development network is specially situated in order to support new business growth. Regional teams are supported by global initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within each and every aspect of the company. The DFSS or otherwise known as Design for Six Sigma ensures product reliability within every region. The team is even included transactional Green Belts who apply Six Sigma tools to business techniques and implement lean techniques.
