

## Clark Forklift Part

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those operating in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specialized items fabricated for 20 distinctive brands of lift trucks and automated equipment. Your local Clark Seller is your total source for availability of all your components requirements offered by Clark Totalift.

Clark's exceptional Parts Distribution Centers are conveniently situated in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Worldwide, Clark has one of the most impressive dealer support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering protection features such as the operator restraint system. This exceptional dedication to safety is currently a customary feature on every forklift.

Clark's continual mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the world to be certified with the globally approved quality standard ISO 9001 for all of their manufacturing facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the structure of "Lean Manufacturing" at all of its assembly facilities for the reason that this technique is particularly economical and allows for minimal use of resources. Established to ensure maximum proficiency, this system is designed to discover and acknowledge the most efficient methods for manufacturing facility management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to enhance the proficiency and brilliance of their merchandise while minimizing costs. The new value engineering program combines innovative product development and provides superior client support and service within the industry.
