

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each global business. Transporting industrial goods occurs every day on our industrious planet. First innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained popularity after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machinery spread worldwide.

Initially started as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first forklift. Throughout the years, TCM forklifts have become a global leader in lift truck manufacturing and have built a solid reputation with the trade. TCM began building lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly manufactures numerous models of industrial lift trucks with over 50 years of accumulated expertise and technology, making their products used and recognized all over the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading business.
