

Forklift Spreader Bar

Spreader Bars for Forklift - ELME has been proudly operating since the year 1974, becoming the largest independent spreader manufacturer all over the globe. They are a dedicated maker of spreaders meant for many different applications such as the handling of containers, swap bodies and trailers.

Engineering is done in house by means of utilizing the newest CAD systems and FEM tools. The ELME company presently employs over one hundred twenty five personnel. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers across the globe.

The ELME product series offers spreaders meant for various trailer and container handling operations. Several of their inventory include: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes as well as a wide range of attachments.

ELME manufacturing and production is done in a highly automated purpose built factory. In the year 2008, they made more than 1150 spreaders by way of using top quality parts so as to ensure dependability and high standards while offering reasonable prices. Major features of ELME comprise design simplicity, market feedback and inventive modular spreader concept.
